

FULL STACK DEVELOPER

Job Overview

We are looking for a Full Stack Developer to produce scalable software solutions. You'll be part of a cross-functional team that's responsible for the full software development life cycle, from conception to deployment. As a Full Stack Developer, you should be comfortable around both front-end and back-end coding languages, development frameworks and third-party libraries. You should also be a team player with a knack for visual design and utility. Our company uses Scrum Agile methodology, experience working under this framework is preferred.

Responsibilities

- Work with development teams and product owners to ideate software solutions
- Contribute to design client-side and server-side architecture
- Build the front-end of applications following existing mockups
- Develop and manage well-functioning databases and applications
- Write effective APIs
- Test software to ensure responsiveness and efficiency
- Troubleshoot, debug and upgrade software
- Create security and data protection settings
- Build features and applications with a mobile responsive design
- Write technical documentation
- Work with stakeholders and product owners to improve software

Requirements

- Degree in Computer Science or relevant field.
- Proven experience as a Full Stack Developer or similar role.
- Experience developing desktop and mobile applications.
- Familiarity with common stacks.
- Knowledge of multiple front-end languages and libraries (e.g., HTML/ CSS, JavaScript, XML, jQuery).
- Knowledge of multiple back-end languages (e.g., C#, Java, Python) and JavaScript frameworks (e.g., Angular, React, Node.js).
- Familiarity with databases (e.g., SQL Server, MySQL, MongoDB), web servers (e.g., Apache) and UI/UX design.

Competences

- Excellent communication and teamwork skills
- Great attention to detail
- Organizational skills
- An analytical mind
- Bilingual is a plus – English and Spanish (Not Mandatory)

Terms of the offer:

- **Work modality:** Full-time remote job. 8 hours per day from Monday to Friday.
- **Contract:** Independent worker/contractor (6 months to begin, it might extend if you have a good performance and if the company needs to continue with your professional services).
- **Compensation:** The compensation is based on your skills and experience, so please let us know what your compensation goal is, so we can send the application form with your proposal to our client.
- **Payment modality:** The payment is in dollars. It's necessary that you be able to emit to us a personal receipt or invoice for your professional services each month and to have an available bank account or payment platform to receive the payment.
- **Note:** *The work can be done in any city or country, except Venezuela, Iran, North Korea, Cuba, Iraq or Russia. You can travel and visit them, but If the job is done in those countries the contract finishes immediately.*

Selection process:

- When we get the completed documents (CV/Resume in English, Experience questionnaire and Remuneration goal) we will send the application form to our client.
- Our client will review your profile and if they selected you, we will schedule an interview. In the interview, our client will evaluate your skills and experience, and also provide more information related to the job and projects.
- If our client decides to hire, we will send you the contract and coordinate the onboarding.
